

FIRSTSERV

Colocation

Colocation

Firstserv provide flexible colocation hosting in our London Docklands datacentres. We offer top of the range racks, 100% power uptime and multiple diverse feeds to the Internet.

With our colocation you can have full control over the hardware and software you use, without the expense of maintaining a connected building.

Our support team are available 24x7, and our hosting is backed by our **99.99% SLA**: we won't let you down. Your data and uptime are important to us.

Benefits of Firstserv Colocation

Power We have a 100% power SLA, so you will not lose connectivity with a power outage.	✓
Bandwidth We offer 99.99% bandwidth uptime on up to 5Gbps fibre (or install your own fibre if preferred) – fast, flexible connectivity.	✓
24 Hour Access You have 24 hour access to your servers, so you can work on them straight away if a problem arises.	✓
24 Hour Support We have a 24 hour on-site technical team, so you don't have to drive miles to troubleshoot your servers.	✓
Hardware We use Rittal TS8, top of the range racks so you can be confident that your equipment will be correctly ventilated, will fit correctly and will be secure.	✓
Cabling We provide high quality Cat6E patching throughout - means fast Gbps connection speeds.	✓
Security We have 24 hour on site security, for peace of mind and ISO27001 compliance.	✓
Flexibility Firstserv allow you to customise and mix cloud hosting, colocation and dedicated servers, to provide the best solution for your needs.	✓

You need a hosting company that is focused on you. We promise to understand and meet your needs. Choose Firstserv with confidence.
